Left Luggage Policy for Leicester Racecourse

Racegoers are encouraged to leave their luggage and any other large items at home or in their hotel and not to bring such items into the racecourse.

We encourage people not to bring bags on to the racecourse that are bigger than A4 size.

All bags that need to be stored will be searched upon entry before being stored within The Kube which may delay your entry into the racecourse.

This facility will be open when the doors open to public and will be shut down 30 minutes after the last race to be collected.

When someone enters the Kube with their bag/ luggage it will be searched correctly by an SIA security member of staff and if everything is okay a raffle ticket will be attached to the bag / luggage and the second raffle ticket will be handed to the person leaving the bag /luggage.

This ticket must be shown to the security staff when the person comes to collect the bag/ luggage after racing.

If there is an issue with someone's bag / luggage the Safety Officer must be informed immediately.

This service will be free of charge.
